

Our Covid-safe plan is:-

- Practice social distancing when entering the building and at all other times.
- The chairs will be spaced accordingly.
- **All members will be required to wear masks for your own safety and the safety of other members.**
- Wipes, disinfectant, and hand sanitizer will be provided. All members will be asked to wipe down their chairs and put them away at the end of the evening.
- Members will need to bring their own refreshments, i.e. water/flask etc. (Kitchen is unavailable) and take away any rubbish with them.
- You will place your prints on a table/tables by window on top of your name label, therefore no one's photos will be touching anyone else's.
- Elaine will be putting the prints on the stands at the beginning of the evening and the prints will not be touched until you collect them at the end of the evening. Hand sanitizer will be used between each person's. Members will be asked to collect their photos at the end of the evening – only one person at a time will be allowed to collect their prints.
- Only one member at a time will be allowed to view the photos on the stands during the break (if we have 4 stands then that will mean 4 members at any one time).
- Please remember to socially distance during the break.
- The public toilets are open however please minimise the use of these facilities
- **Please note we cannot get into the hall before 7.30 pm and we will aim to start the judging at 7.45pm and aim for the judging to finish by 9.45pm so that the building is vacated by 10pm.**
